Re: Western Resource Advocates, The Wilderness Society and partners' scoping comments on Proposed San Luis Valley Transmission Project – Attachment A included under this cover.

Please accept and fully consider the attached CD as Attachment A (GIS data of intersection of proposed transmission corridor with sensitive resources and values) of scoping comments by Western Resource Advocates, The Wilderness Society and partners on the proposed San Luis Valley Transmission Project. Those comments were submitted under separate cover via email (to dennis.rankin@wdc.usda.gov) on September 21, 2009. A .zip file with the Attachment A GIS data was also included with that email.

Please let us know if you have any questions. Thank you for your consideration of our comments.

Sincerely,

Suzanne Jones, Regional Director
Colorado Regional Office
The Wilderness Society
1660 Wynkoop St., Suite 850
Denver, CO
80202

N-003-001: Comment Noted (In Review)

Your email/letter/comment form has been received and your comment noted.

The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at
<http://www.usda.gov/rus/water/ees/ea.htm>.
